

# Continuous Improvement & Accountability

## Using Data for Continuous Improvement Planning

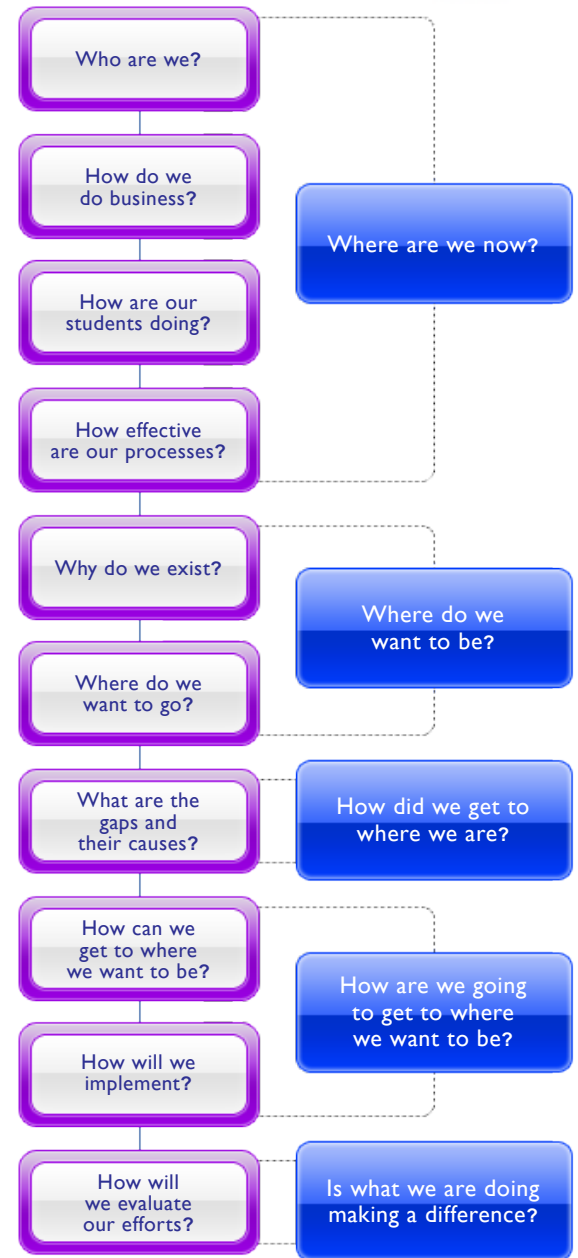

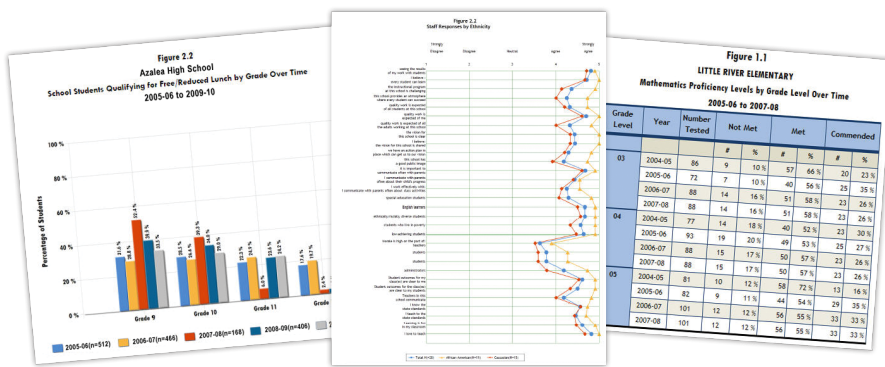

### SchoolPortfolio™

SchoolPortfolio™ is a web based, Continuous Improvement Planning tool developed in partnership with Education for the Future and Dr. Victoria Bernhardt.

### Spend More Time Implementing, Evaluating, and Improving

- Automatically creates your own comprehensive and longitudinal data profile
- Records strengths, challenges, and next steps
- Guides users through the planning process to find commonalities among different types of data
- Carries forward implications from each data area to the planning section to make planning easier and more complete
- Stores data, notes, and plans in a single place for easy roll over from one year to the next
- Includes downloadable professional development activities
- Links to activity artifacts for easy viewing and retrieval
- Provides examples and relevant educational resources
- Includes examples and resources for doing the actual work
- Enables you to create a school improvement plan that is based on data, and that will make a difference for all of your students
- Integrated online survey tool
